MAY/JUNE 1982

PLAY BALL! Yes its that time of year again — when that old familiar call rings loud in ballparks across the country. And with last year's players strike now almost a distant memory and the promise of even a more eventful and surprising season this year, baseball fever hits us all once again.

For all of our Channel Chart subscribers who are tried and true baseball fans, we've researched and compiled a list of all Major League games that are televised back to the visiting teams' home towns - and which of those televised games will likely be carried via satellite. Also included are some home games that are televised in the home cities but are also carried via satellite for regional distribution. We have not listed those games shown on USA Thursday Nite Baseball, NBC Saturday Baseball and ABC Monday Night Baseball. Consult your satellite guide and your local listings for these games and times. We have, however, included all WGN, WOR and WTBS Superstation games for the Cubs, Mets and Braves.

Games are listed in **EASTERN TIME and PM** only (subtract for your time zone), followed by order of most-likely-satellite and then by the "likelyhood" that the game will be available via satellite:

*** * * * MOST LIKELY**
*** * * LIKELY**
*** * POSSIBLY**
*** NOT LIKELY**
